## COVID-19: Entering Canada requirements checklist – Fully Vaccinated

---

As a **fully vaccinated** traveller here is what you need to prepare:

### Before you travel

Use the same email address for all your entry requirements, where applicable (that is, when registering for COVID-19 testing upon arrival and creating your ArriveCAN account).

- [Find out if you can enter Canada](#)
- [Check if you qualify for the fully vaccinated traveller exemption](#)
- [Get your pre-entry COVID-19 test](#)
- [Register in advance for your arrival test](#)
- [Have a quarantine plan in case you don't receive the exemption](#)
- [Use ArriveCAN to submit your proof of vaccination](#)

### Arriving in Canada

Have the following items with you for assessment by a government official at the border:

- ArriveCAN receipt
- Proof of vaccination (either printed or digital copy)
- Pre-entry test results (either printed or digital copy)
- Other travel documents, including a **quarantine plan**

### After arriving

If you meet the requirements and are exempt from quarantine, you may travel by air or land to your destination.

You must:

- follow local public health measures;
- maintain a list of all close contacts for your first 14 days in Canada; and,
- keep copies of your proof of vaccination for 14 days.

## COVID-19: Entering Canada requirements checklist – Fully Vaccinated

---

### Prior to leaving Canada / COVID-19 Testing Required for U.S. Entry

Effective January 26, the [Centers for Disease Control and Prevention \(CDC\)](#) require all **air passengers**\* two years of age and over entering the United States (including U.S. citizens and Legal Permanent Residents) to present a negative COVID-19 test, taken within three (3) calendar days of departure, or proof of recovery from the virus within the last 90 days.

Airlines must confirm the negative test result or proof of recent recovery for all passengers prior to boarding. Airlines must deny boarding of passengers who do not provide documentation of a negative test or recovery.

See the [CDC Proof of Negative Test Result page](#) to view the order, complete the attestation, and to see FAQ's.

\*Please note the requirements of this CDC order only apply to air travel into the US and does not apply to land border crossings.<sup>1</sup>

### List of Private Testing Labs:

Whitehorse, Yukon Territory
